# New Beginnings

**Martyn Harriman-**consumer of the attendant care program **The reason I moved to Williamsport was to take care of my ill father. I've been on my own since the age of 19. When my father passed, I didn't know what I was going to do, I was lost.**

**Thank God for the friends of my father because they helped me a lot and introduced me to some agencies that would be able to assist me with my living arrangements. One of which was the CILNCP. If it wasn't for the CILNCP, I wouldn't be in the position that I am in today. They helped me find an apartment and they are always there to help me with any problems that occur.**

**Since receiving these services I have been able to have control over my life while also receiving the help that I need in my home. I would like to thank all that played an important part in my life for the last seven years through my participation in the attendant care program.**

**My name is Carl and I would like to show a token of gratitude and appreciation for the help that I was able to get from the CILNCP. God bless the program because it is so very much needed for people like me that are disabled in all areas and not just physical disabilities. I would like to give a special thank you to my service coordinator for helping me in a very caring way and for the respect that she gave me. It was an honor for me to say a few words of appreciation, and I'm very thankful for all of the people that work at the CILNCP. God bless you guys and keep up the wonderful work you all do. Thank you very much.**
